

NEW STRONGER FARMHOUSE : FIBER POLE AND TIE DOWN DIAGRAM

TO INSERT THE FIBER POLES WITH RED STICKER TO THE HORIZONTAL FIBER POLE THAT HAS CONNECTOR WITH RED STICKERS

TO INSERT THE FIBER POLES WITH GREEN STICKERS TO THE GREEN WEBBING POCKETS ON EACH OF THE 2 SIDES

FarmHouse set-up.

- Step 1. Unpack FlowerHouse and accessories, allowing the spring steel bands to pop open
- Step 2. Take fiber poles out of pack and assemble completely. Ensure poles are fully seated into each other. You will have four equal length poles one shorter pole with an "X" bracket and two L shaped poles.
- Step 3. Install top roof pole (the single shorter pole with the "X" in the center) by inserting the pole into the pockets sewn inside the Flower House at the roof peaks.
- Step 4. Install the sidewall support poles by inserting the poles into the pockets sewn inside the FlowerHouse in each sidewall corner. Insert one pole at a time, diagonally to form an X in each wall. Secure poles with ties sewn into wall.
- Step 5. Install the L shaped poles into the center "X" bracket in the center of the roof. Insert the bottom end of the pole into the pocket at the center of the side wall at the floor, leaving the poles off center till both poles are both inserted. Once both poles are installed, push poles to the center.

(Hint: Fiber pole pockets may be obscured behind the spring steel bands. Pull the band away from the wall and insert fiber poles into pockets)
- Step 6. Stake Greenhouse in location and install High wind tie downs

Set up Instructions

Step 1: Remove your DreamHouse™ from the pack.

Step 2: Allow your DreamHouse™ to spring open.

Step 3: Unfold your DreamHouse™ into 2 panels. Shown Above.

Step 4: Unzip the easiest accessible doorway and screen. Grab the center steel band and lift up to separate the two sides of your DreamHouse™.

Step 5: While holding on to the center steel band, walk away to separate the 2 sides of your DreamHouse™. Continue pulling out on the band to spring it into place.

Step 6: Once the walls are spread apart, your DreamHouse™ will stand up on its own. Position your DreamHouse™ where you want it.

Step 7: Secure your DreamHouse™ using the supplied stakes. Insert the stakes into the stake holes of the skirt at 45° angles.

DreamHouse™ Parts List:

- DreamHouse™ 6'5" high x 8' wide x 8' deep
- Ground Stakes & High Wind Tie-Downs
- Shade Cover
- Carry Pack

Step 8: Secure your DreamHouse™ using the high-wind tie-downs. Insert one end of the rope through the D-ring in the top corner, then through the anchor. Knot the rope around a stake and insert it in the ground at a 45° angle. Keep as much tension on the rope as possible. Repeat this step with all corner locations, as well as the D-rings on the peak ends and top center of the side walls.

Step 9: Begin with the X-shaped fiberpole. (See "J") insert the capped ends into the pockets above the doorways. (See "K"). Then completely assemble the fiberpole.

Step 10: Beginning with **one** of the L-shaped fiberpoles, insert the capped end into the pocket in the center near the floor. (See "L"). Insert the uncapped end into the X-shaped piece. (See "M"). While assembling the L-shaped pole, keep it to one side. This will relieve some tension and allow for easier assembly. (See "La").

Step 11: Repeat Step 10 with the second L-shaped fiberpole. When the poles are completely assembled, move them to the center of the wall, and tie them to hold them in one place. See photo "N").

Step 12: After tying your fiberpoles to the wall. The doorways of your DreamHouse™ can be secured open. First, unzip the top portion of the doorway. Roll it down and secure it with the straps. Shown in "O".

Step 13: The doorway and screen can be secured open. Unzip both the doorway and screen. Fold the top portion down as in Step 11. Roll the doorway and screen together long way. Secure them with the straps. Shown in "P". To secure the vents (Shown in "Q"), Roll them up and use the straps to hold them in place.

Step 1: Remove all high-wind tie-downs and stakes. It may be easier for you to use the head of one stake to remove another.

Step 2: Untie the straps holding the L-shaped fiberpoles in place. Move them to one side. This will relieve some tension.

Step 3: Step on the skirting just under the pockets to remove the fiberpoles.

Step 4: Remove the L-shaped fiberpoles from the X-shaped fiberpole at the ceiling. Remove the fiberpoles from the ceiling. Step outside your DreamHouse™ and zip the doors shut.

Step 5: Push one corner steel band of your DreamHouse™ in toward the opposite corner. Tip your DreamHouse™ so it lies on the ground. NOTE: It will not lay flat. See photos "5 & 5a" above.

Step 6: Push firmly on the center steel band (shown in "F") to spring it back into place so your DreamHouse™ will fold inward.

Step 7: Fold your DreamHouse™ in half, from two panels to one (See 7 and 7a). Page 1

IMPORTANT:

- Before Storing your DreamHouse™, allow the interior and exterior to dry completely to prevent mold and mildew from growing. Growth of mold and/or mildew will result in stains on the walls.
- Store your DreamHouse™ in a cool dry place.

Take Down Instructions

Step 8: Choose one of the top corners so the skirting does not get in the way. Fold your DreamHouse™ in half. You will feel the tension of the spring steel. Move your left hand back to where your DreamHouse™ is bent.

Step 9: Invert your hands. Fold the top corner under while you bring the left side up and over. While doing this, slide the entire DreamHouse™ toward you.

Step 10: Once the top corner is folded under, fold the left side down completely.

Step 11: Fold the right side down over the left side.

Step 12: When finished, your DreamHouse™ will form 3 rings on top of each other. Shown above.

Step 13: Hold the DreamHouse™ between your knees to prevent your DreamHouse™ from springing open.

Step 14: Slide the pack over your folded DreamHouse™.

Step 15: Store the stakes and high-wind tie-downs in the pouches provided and place them in the pack. Now you can take your DreamHouse™ anywhere!
