

**Step 1:** Remove your PlantHouse 2™ from the pack.

**Step 2:** Allow your PlantHouse 2™ to spring open. **CAUTION:** Be Sure to hold your PlantHouse™ away from your face as it will Spring open.

**Step 3:** Unfold your PlantHouse 2™ into 2 panels.

**Step 4:** Grab the center steel band and lift up to separate the two sides of your PlantHouse™. Smooth and unfold the skirting.

**Step 5:** Assemble the fiber pole provided. Insert the capped ends into the pockets above the doorway and opposite end.

**Step 6:** The doorway and screen can be secured open either together or separate. Simply unzip the doorway and/or screen. Roll them long way. Secure with the straps provided.

Attach your shade cover for added protection.

**Step 1:** Begin first by removing all of the stakes. It may be easier for you to use one stake to remove another.

**Step 2:** Be sure your doors and screens are zipped closed, then place your PlantHouse™ on it's side and remove the fiber pole from the ceiling.

**Step 3:** Push on the center steel band. The two top bands must be forced to lay uniformly on top of the two bottom bands so your PlantHouse™ will fold into two panels.

**Step 4:** Folding one panel on top of the other panel your PlantHouse™ should be one flat panel. Shown in Photos 4 & 5.

**Step 5:** Choosing the top corner, fold your PlantHouse™ in half. You will feel the tension of the spring steel. Continue folding under while you bring the left side up and over. Your PlantHouse™ should resemble a taco. See photos 6 & 7.

**Step 6:** Continue folding your PlantHouse™.

**Step 8:** Fold the right side over the left side.

**Step 9:** When finished your PlantHouse™ will form 3 rings on top of each other.

**Step 10:** Hold your PlantHouse™ between your knees to prevent it from springing open. Begin to slide the carry pack over your folded PlantHouse™.

**Step 11:** Continue to slide your PlantHouse™ into your carry pack. Store the stakes in their pouches and place, along with your fiber pole into the pack.

Now you're ready to take your PlantHouse™ anywhere.

### IMPORTANT:

- Before storing your PlantHouse™ GreenHouse, allow the interior and exterior to dry completely to prevent mold and mildew from growing. Growth of mold and/or mildew will result in stains on the walls.
- Store your PlantHouse™ in a cool dry place.
