

SET-UP INSTRUCTIONS

Step 1: Remove your SeedHouse™ from the pack. **CAUTION: The SeedHouse™ & SeedHouse Jr.™ is spring-loaded. Keep away from face to prevent injury.**

Step 2: Allow your SeedHouse™ to spring open as you **STAND CLEAR.**

Step 3: Pull out the 4 corners to prepare for stakes.

Step 4: The vents of your SeedHouse™ and SeedHouse Jr.™ can be secured open for ventilation. First unzip them, roll them up and secure them with the straps to hold them in place.

SeedHouse™ & SeedHouse Jr.™ Parts List:

- 1 SeedHouse™ GreenHouse (2' high x 2' wide x 34" deep)
- SeedHouse Jr.™ (30" high x 30" wide x 26" deep)
- 4 Ground Stakes
- 1 Fiber Pole
- Shade Cover
- Carry Pack

TAKE-DOWN INSTRUCTIONS

Step 1: To take down your SeedHouse™, begin by removing all high-wind tie-downs and stakes. It may be easier for you to use the head of one stake to remove another.

Step 2: Collapse your SeedHouse™ flat into 1 panel. See Photo "2".

Step 3: Choose one of the top corners so the skirting does not get in the way. Fold your SeedHouse™ in half. You will feel the tension in the Spring Steel. See photo 3.

Step 4: Move your left hand back to the corner where your SeedHouse™ is bent. Fold the top corner under, while you bring the left side up and over. While doing this, slide the entire SeedHouse™ toward you.

Step 5: Once the top corner is folded under, fold the left side down completely. Continue to fold the right side over the left side. When you are finished, your SeedHouse™ will form 3 rings on top of each other.

Step 6: Place your SeedHouse™ between your knees to prevent it from springing open. Slide the carry pack over your SeedHouse™.

Step 7: Store the stakes in the pouches provided and place them in the pack.

Now you can take your SeedHouse™ anywhere.

IMPORTANT:

- Before storing your SeedHouse™ or SeedHouse Jr.™ allow the interior and exterior to dry completely to prevent mold and mildew from growing. Growth of mold and/or mildew will result in stains on the walls.
- Store your SeedHouse™ and/or SeedHouse Jr.™ in a cool dry place.
